

Welcome to

Mathematics and Computer Science Library

The Mathematics and Computer Science Library is common to the Department of Computer Science (DI) and the Department of Mathematics and Applications (DMA) and it supports their immediate needs.

The library holds a rich collection of monographs, periodicals and e-books which covers the major fields within the discipline: logic, algebra and number theory, topology and applied mathematics and also the disciplines specifically for computer sciences.

Based on the 3 levels of the 45 rue d'Ulm this library aims to create an inviting environment for research and cultural learning with a new scientific mediation area and silence zones.
